

24/7 Virtual Visit

Provides 24/7 Access to Care.

When you or a family member don't feel well and your primary care doctor or your child's pediatrician can't see you right away, you can now get care within minutes without leaving home with Teladoc.

Connect to a provider anytime, anywhere with 24/7 Virtual Visits. With your health plan, your cost is usually \$0.

Getting Started

Set up your account today—so when you need care, a **24/7 Virtual Visits** doctor is a just a call or click away.

24/7 Virtual Care

With 24/7 Virtual Visits, providers treat many of the same ones treated in an emergency room or urgent care. If needed, providers may prescribe medications.

- Sinus infection
- Upset stomach
- Flu
- Nausea
- Cough
- Allergies
- Sore throat
- Other minor health issues and more
- Rash

Access to care for unexpected health concerns

24/7 Virtual Visit experience

Meet Tessa, a working mom with young children.

Tessa is getting ready for work when she notices her son has a rash.

She schedules a 24/7 Virtual Visit through myuhc.com® and sees a provider within 15 minutes.

The provider diagnoses her son with contact dermatitis and sends a prescription to a local pharmacy.

Tessa picks up the prescription on her way to daycare and then heads to work.

Download the app for access to virtual healthcare.
